- (b) Remember to be outside the classroom when the Hindi class ends to take your child to their culture class.
- (c) Review work at home with your child and send the child prepared for class (with the workbook, sharpened pencils, erasers, crayons, handouts from previous classes)
- (d) Please do not work with the child on letters not covered in the class in the workbooks used at school. Should you choose to work at a pace different than the class, please use your own books.
