

Marathi Advanced Class on Sunday, Dec 13th

Dear parents,

We started our class with Ruchi and Vinit's presentation about today's weather. They both did a great job.

We then read couple of jokes of 'Chintu'. Kids loved to read these jokes, please continue to do so at home. Next week, I will call any three to read their favorite joke in front of the class. Homework is to read the printout of the joke sent home with the kids.

Kids were given a picture of a birthday party. Kids came up with sentences in Marathi about what they saw in the picture. Kids then acted as if they are making a phone call to invite (amantran dene) their friends. We talked about when and where is the birthday party?, what time?, are you free?, etc. Homework is to write answers to the questions in complete sentences in Marathi.

We also did the emotions in Marathi. For eg., hasara, radaka, chidka, etc. Homework is to finish jodya lava. For 2nd year students, the homework is to write sentences about when they felt that emotion. Pick any 2 emotions.

Thanks and regards,

Sujata
