

Dear Marathi Advanced Class parents,

In this class, we focused on conversational Marathi. The topic was bazar (market) and shopping for fruits, vegetables, clothes. Kids were given out a picture and came up with sentences to describe the picture. We learned some new words- tarajoo, dukandar, kimmat, phalwala, mahaag, swast, names of all fruits in Marathi, etc. Then we did roleplay. Kids had fun acting like dukandar and customer. We will continue with the same topic next week, so parents please go through the handout and try to come up as many words in Marathi related to bazaar and shopping.

Homework is to write 10 words related to shopping and bazar and answer questions on the paper that was handed out. Those who do not have the handout, can write any 5 sentences related to shopping.

Thanks and regards,

Sujata
