

Marathi Advanced Class on Sunday, Nov 15th

Dear parents,

We started our class with conversation in Marathi about weather. We learned 3 seasons- Unhala, pavasala, hiwala. We looked out side the window and talked about that days weather. Kids made observations about aaj khup oon aahe, dhagal nahi, paus padnar nahi ase vatate, aaj garam aahe, etc. Kids are going to continue presenting about the weather every week. Next week, **Anurag and Rahul are going to talk about weather in front of class next week. Everybody is expected to come to the class with some preparation to talk about the weather for that day. For homework, second year students will write 3 sentences about the weather on Sunday.**

We came up with words with sound "au" like- Kaurav, aushadh, aut, etc. Kids came up with sentences-like -'Aushadh kadu aahe', "Kaurav pandavanche shatru hote", etc. Homework is to write five sentences with sound au. We will continue with this sound next week.

We also did following jodakshare with "R" in it.

T+ R= Tra - Kutra, Patra (letter), etc.
P+R= Pra- Prashna, Prakash, etc
K+r= Kra- Kram, Vikram, etc.

For homework, first year students are supposed to write 2 words each for these jodakhare. Second year students will write 1 sentence each.

We will continue with conversation about 'bazar' next week. Kids should bring some toys with them to help them act out some scenes. Please also bring the handouts that I gave you 2 weeks ago for topic "bazar".

Thanks and regards,

Sujata
